

TRACKED CONVEYORS

Gradus Tracked Conveyors

Gradus Tracked conveyors are designed to minimize operating costs whilst maximizing stockpile capacity. Exceptional build quality and rapid set-up time go hand in hand with competitive pricing and versatility.

Using a mobile stockpiler will help reduce operating costs as a wheeled loader will not have to move the material under the belt as often or as quickly as is the case with shorted integral machine conveyors. Less fuel is therefore used which not only reduces cost but also helps the environment. Less re-handling also means greater consistency of product and less contamination from diesel/oil spills. Gradus tracked conveyors are much easier to move around site and will containerise without removing any parts.

MODELS:

- **TR6036H** – 60' (18m) Tracked Conveyor Fully Self Powered, Drive Unit - Diesel Engine CAT 2.2Na
- **TR7542H** – 75' (22m) Tracked Conveyor Fully Self Powered, Drive Unit - Diesel Engine JCB444 DieselMax

FEATURES

- Hydraulic Fold Head Section
- CAT or JCB Diesel Powerunit
- Chevron Belt

OPTIONS

- Radio Remote Control
- Direct Feed Grid
- Canopy Covers
- Pull Cord Stops
