

WHEELED CONVEYORS

Gradus Wheeled Conveyors

Gradus radial wheel conveyors are designed to minimize operating costs whilst maximizing stockpile capacity. Exceptional build quality and rapid set-up time go hand in hand with competitive pricing and versatility.

Gradus radial wheel conveyors are exceptionally well priced and come with hydraulic coupling as standard. The cost of running the stockpiles is greatly reduced as the conveyors run off the hydraulic system and power from the main crushing/screening plant. Operators are able to run the plant as a single person set-up as there is less need to constantly remove material from under the belts. The radial wheel manual increases the overall capacity of material stockpiled at any given time.

MODELS:

- **ST6036** - 60' (18m) Wheeled Stockpiler, Drive Unit - Hydraulic Coupling for Powering Through Existing Equipment
- **ST6036M** - 60' (18m) Wheeled Stockpiler, Drive Unit - Electric Drive
- **ST6036P** - 60' (18m) Wheeled Stockpiler, Drive Unit - Diesel Engine CAT2.2Na
- **ST8042** - 80' (24m) Wheeled Stockpiler, Drive Unit - Hydraulic Coupling for Powering Through Existing Equipment
- **ST8042M** - 80' (24m) Wheeled Stockpiler, Drive Unit - Electric Drive
- **ST8042PH** - 80' (24m) Wheeled Stockpiler, Drive Unit Diesel Engine JCB444 DieselMax

FEATURES

- Diesel Powerunit – CAT or JCB
- Chevron Belt.
- Hydraulic Fold Head Section (Applicable for ST8042PH only)

OPTIONS

- Electric drive
- Direct Feed Grid
- Canopy Covers
- Pull Cord Stops
